

Carbon Reduction Plan

Medica Advanced Technologies Limited

Publication Date: October 2026

Commitment to Achieving Net Zero

Medica Advanced Technologies Limited is committed to achieving Net Zero greenhouse gas emissions by 2050.

This commitment applies to the Company's operational and value chain emissions and includes Scope 1, Scope 2 and all relevant Scope 3 emissions categories as defined by the Greenhouse Gas Protocol Corporate Accounting and Reporting Standard and Corporate Value Chain (Scope 3) Standard.

As a wholly owned subsidiary of Medica S.p.A., Medica Advanced Technologies Limited recognises its responsibility to support the transition to a low-carbon economy and to contribute to the United Kingdom's Net Zero objectives.

Baseline Emissions Footprint

Baseline Year

2026

Additional Details Relating to the Baseline Emissions Calculations

This is the first Carbon Reduction Plan prepared by Medica Advanced Technologies Limited. The baseline year represents the first year in which a complete organisational carbon footprint has been established in accordance with the requirements of PPN 006.

Baseline Emissions

Emissions Source	Total (tCO ₂ e)
Scope 1	6.0
Scope 2	2.6
Scope 3	76.2
Total Emissions	84.8

Current Emissions Reporting

Reporting Year: 2028

Emissions Source	Total (tCO ₂ e)
Scope 1	To be calculated
Scope 2	To be calculated
Scope 3	To be calculated
Total Emissions	To be calculated

Scope 3 Categories Included

The Company has assessed all Scope 3 categories under the GHG Protocol Corporate Value Chain (Scope 3) Standard and has included those deemed relevant to its operations, including where data is available:

- Purchased Goods and Services
- Capital Goods
- Fuel and Energy Related Activities
- Upstream Transportation and Distribution
- Waste Generated in Operations
- Business Travel
- Employee Commuting

Scope 3 Categories Deemed Not Relevant

In accordance with the GHG Protocol Corporate Value Chain (Scope 3) Standard, Medica Advanced Technologies Limited has assessed all Scope 3 categories for relevance to its business activities as a distributor of medical equipment and consumables serving NHS and private healthcare customers within the United Kingdom.

The following categories have been deemed not relevant:

Category 8 - Upstream Leased Assets

The Company does not lease assets which are not already included within Scope 1 or Scope 2 reporting boundaries.

Category 10 - Processing of Sold Products

Products supplied by the Company are generally delivered ready for use and are not subject to significant additional processing by customers.

Category 13 - Downstream Leased Assets

The Company does not lease assets to customers or third parties.

Category 14 - Franchises

The Company does not operate a franchise business model and has not granted franchise rights to external organisations.

Category 15 - Investments

The Company is an operating company and does not maintain investment activities falling within the reporting requirements of this category.

Categories 11 (Use of Sold Products) and 12 (End-of-Life Treatment of Sold Products) will be reviewed regularly as the availability and quality of product lifecycle data improves.

Carbon Reduction Projects

Medica Advanced Technologies Limited intends to implement the following environmental initiatives to support the achievement of its Net Zero commitment.

Transportation and Travel

- Reduce business travel through increased use of video conferencing technology.
- Encourage sustainable travel options for employees.
- Review company vehicle requirements and transition towards lower-emission vehicles where operationally feasible.

Energy Management

- Improve energy efficiency within office and warehouse facilities.
- Monitor and reduce electricity consumption through operational controls and employee awareness initiatives.
- Consider the procurement of renewable electricity tariffs where available.

Supply Chain Engagement

- Work collaboratively with Medica S.p.A. and key suppliers to improve carbon transparency within the supply chain.
- Incorporate environmental considerations into supplier evaluation and procurement processes.
- Encourage suppliers to establish and publish their own carbon reduction commitments.

Waste Reduction

- Improve waste segregation and recycling practices.
 - Reduce paper consumption through digitalisation of business processes.
 - Work with suppliers to minimise packaging materials where appropriate.
-

Future Targets

Medica Advanced Technologies Limited aims to:

- Establish a complete carbon emissions inventory during the 2028 reporting period.
 - Identify the Company's most significant emission sources.
 - Develop measurable carbon reduction targets by 2029.
 - Review emissions performance annually.
 - Achieve Net Zero greenhouse gas emissions by 2050.
-

Governance

Responsibility for environmental management and carbon reduction performance rests with the Senior Management Team.

Carbon emissions data and reduction activities will be reviewed annually and reported within future updates to this Carbon Reduction Plan.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance relating to Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard.

This Carbon Reduction Plan has been reviewed and approved by the Board of Directors of Medica Advanced Technologies Limited.
