### Medica Profile

Medica Group is operating since 1985 in the biomedical district of Mirandola (Italy). Development of innovative products for blood purification has always been company's core business. Thanks to the activity of two extremely dynamic R&D groups (medical equipment, membranes and disposable), the Group competes successfully in several markets, namely:

- **Medical** (dialysis, CRRT, ECCO2, Apheresis, DFPP, CHF, HIPEC, pre-transplant organ perfusion, bioregenerative medicine, gastroenterology, urodynamics, oxygen humidification).
- **Microbiological purification of water**
- **Industrial automation** for the biomedical sector.

R&D focus has been integrated over the years with a highly automated production systems in five different facilities, four in Italy and one in Tunisia, and two commercial entities (in US and in China).

The key success factors of the Group are:

- **extrusion of hollow fiber membranes** for hemofiltration, plasmapheresis, cascade filtration, oxygen humidification, ultrafiltration and microfiltration of water
- **vertical integration**, proved by the ability to manage not only the design and development of medical disposables and equipment, and the development of the automation technologies required for their production as well.
- **International recognition with significant share of export**, with sales in over 60 countries.
