

LEUKOCYTE ADSORBER LA 25

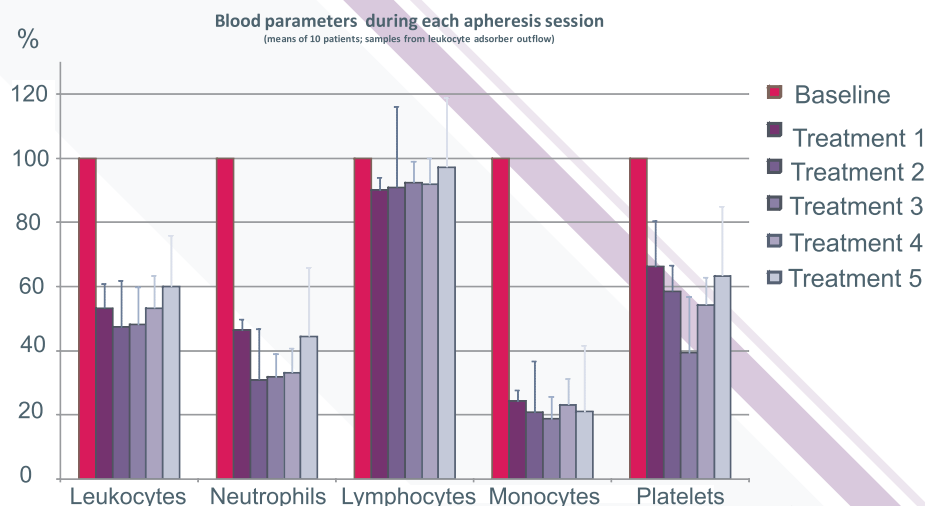

Adsorbent column for therapeutic leukocyte apheresis for IBD (inflammatory bowel disease) such as Ulcerative Colitis, Crohn Disease developed by MEDICA S.p.A, with cutting-edge features:

- Effective and Selective Removal of Activated Leukocytes and Platelets
- Excellent Biocompatibility thanks to **MediSulfone®** Membrane
- Excellent degree of safety and tolerability by patients
- Low Blood Volume
- Sterilization by Beta Radiation; No Gas Residual

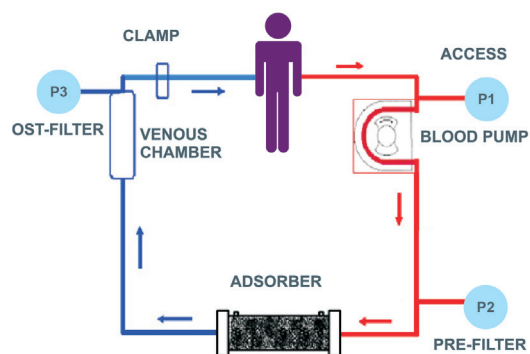

TEST IN VIVO

Blood parameters during each apheresis session
(means of 10 patients; samples from leukocyte adsorber outflow)

SCHEMATIC DRAWING OF EXTRACORPOREAL CIRCULATION

The kit works with a dedicated blood pump named LEUKOSMART.

TECHNICAL DATA OF LEUKOCYTE ADSORBER LA25	
Fiber material	Polysulfone
Fiber length (mm)	MediSulfone®
Fiber surface (m ²)	2
Fiber qty (gr)	25
Blood connectors	Twist Lock
Filter length (mm)	175
Treatment blood flow (ml/min)	30
Treatment duration (min)	60
Priming Volume	130 ml
Sterilisation	Beta Rays
Cartridges and blood port material	PC
Product code for Leukoadsorber kit	M03706

MediSulfone® is MEDICA's registered mark

Leukocyte adsorber LA 25 is assembled without latex, nor direct or indirect animal origin components.
